Advancing the Treaty Creek Project in the Golden Triangle

TUDOR GOLD

TUDOR GOLD CORP.

is a precious and base metals exploration company focused on advancing its Treaty Creek Project (80% ownership), in the Golden Triangle of BC, which is amongst the largest gold-copper discoveries of the past 30 years. In 2024, Tudor Gold made a breakthrough with the discovery of the Supercell One Complex, featuring high-grade gold intercepts up to 9.96 g/t over 25 metres. With multiple high-grade structures discovered—analogous to Brucejack's Valley of the Kings—the company is intensifying exploration to unlock the full potential of this world-class deposit, driving toward a muti-billion-dollar project.

CATALYSTS IN 2026

- PEA underway
- Drill programs underway targeting multiple zones with strong bulk-tonnage potential.
- Anticipated approval of an underground permit to construct a ramp for drill targeting the high-grade SC-1 Zone.
- Advancement toward 100% ownership of the Treaty Creek Project.
